

PROSPECTOR™

AFFORDABLE ✓ DEPENDABLE ✓ PORTABLE

Legendary Re-Tech quality teams up with affordability and portability to leave the competition in the dust. The Re-Tech Prospector has more bang for the buck, more power to produce, and more portability to move from job to job. You can set up and be making money in less than 10 minutes with no special permits.

Standard features include a 6' diameter by 19' long drum, with a 4' wide belt feeder and stacking conveyor. Another special **Prospector** feature is our low loading height of 10'5". If you are searching for a high production, cost effective, dependable and versatile Trommel screen that's made in the USA, **Your search is over.**

The **Prospector** will help turn these applications into profits:

- Topsoil
- Compost
- Mulch
- Sand
- Wood Chips
- Land Clearing
- Demolition Debris
- And More...
